

HÅG Celi

SUSTAINABLE SEATING FOR DYNAMIC WORKSPACES

Introducing HÅG Celi, versatile seating that is an enterprise-wide solution for meeting or training areas, conference rooms, offices or open workspaces. Celi strikes the balance between smart sustainability and colorful style. Built with aluminum to deliver structural support through a gentle curved design, Celi emanates confidence with a playful aesthetic. Celi's aluminum is available in four warm colors and its plastics come in coordinating hues. Combine with the thousands of textile options, and Celi offers designers an endless palette of possibilities.

Using the HÅG inBalance® technology, HÅG Celi promotes focus and concentration through a designed-in rocking motion in the seat and back, a wellbeing feature unheard of in a stacking chair. Celi is truly seating that moves you. And with more than 75% of its materials sourced from reused or renewable materials and a staggering 94% of the plastic and 75% of the aluminum from converted consumer material, Celi makes an impact in your workspace while making an impact on the world.
