For Green Hides samples contact Green Hides at 888.326.0122 or visit [greenhides.com](http://greenhides.com)

For 9to5 Highlands samples contact 9to5 Seating at 888.925.7328 or visit [9to5seating.com](http://9to5seating.com)

### Leather Collections

**Highlands Leather:** Top grain leather with even coloration throughout the entire hide. Superior selection of European cattle hides are hand-selected.

**Sierra Leather:** Top grain leather with even coloration throughout the entire hide. Superior selection of Australian cattle hides are hand selected for Sierra. A gentle buffing and grain enhancement is applied to provide Sierra with a consistent grain structure through each hide and from hide to hide. Sierra is recognized industry wide for its clean surfaces and excellent cutting yield.

**Lena Leather:** Full grain leather with even coloration throughout entire hide. Superior selection of European and New Zealand cattle hides are hand selected for Lena. These hides are recognized industry wide for their clean surfaces and excellent cutting yields. Luxurious, soft hand and smooth supple surface make this one of the most beautiful leathers available.

**Vulcano Leather:** Combines distressed leather aesthetics with the durability of modern tanning. Hand-selected European and New Zealand hides are aniline dyed with a classic marbled crackle effect. A protective non-scratch finish allows use in high traffic areas and makes Vulcano suitable for public and private environments.

### Reduce Environmental Impact

Green Hides leather production is REACH (EC 1907/2006) compliant with aims to improve the protection of human and environmental health. Processed using low emission mineral tanning formulas which are environmentally respectful, the hides are retanned in aged oak drums using vegetable agents, natural fat liquors, oils and dyes that ensure the leather is properly thoroughly dyed. Natural color variations may occur even within the same dye lot.

### Cleaning Codes

**L:** Warm water, mild soap only. Absolutely NO alcohol-based cleaning agents. Dust regularly. Minor spots can be washed off using lukewarm water and mild soap. Do not soak. Never clean with abrasive solvents, alcohol or wax-based products.

**BC: Bleach Cleanable.** Bleach cleanability is desirable for any leather that may need to be disinfected or sterilized. Use a 10:1 water to bleach solution for Highlands, Sierra and Vulcano leathers and a 48:1 water to bleach solution for Lena leather.

**Green Hides Sierra, Lena and Vulcano leathers** meet the BIFMA HCF 8.1-2019 Healthcare Furniture Design Guidelines for Cleanability.
