Material Content Description

Material	Description	Percentage By Weight	Recycled Content[1]	End Life Management
Fabric	Natural / Synthetic	12.4%	0.0%	Recycle where possible
Foam	Molded Polyurethane Foam	11.4%	0.0%	Recycle where possible
Plastic	5% Glass Filled COPP	39.8%	0.0%	Recycle where possible
Steel	Hot Rolled SPHC Steel	36.3%	100.0%	Recycle where possible
		Total Post Consumer Recycled Content	76.1%	

PI = Post Industrial or Pre Consumer Recycled Content

PC = Post Consumer Recycled Content

[1]Values are based on the recycled content of the total chair weight and the specific chair style

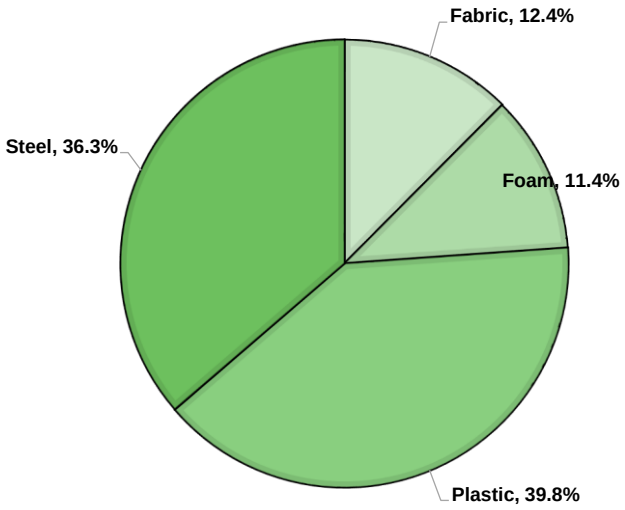

[2]Range based on specific fabric brand and type

Comments:

1. 9to5 Seating complies with the FTC's Guide for the Use of Environmental Marketing Claims.

2. 9to5 Seating encourages blanket-wrapped shipping - corrugated cartons are used for other modes.

3. Product recycling depends on local program.

Indoor Air Quality (IAQ) - Greenguard Certification

Good, clean, indoor air quality is critical to providing healthy environments for building occupants. People today spend as much as 90% of their time indoors. GREENGUARD Certification offers a way to keep pollutants out in the first place. Using products bearing the GREENGUARD Indoor Air Quality Certified® mark can rest easy knowing these products have been independently tested and meet one of the most rigorous chemical emission standards in the world. 9 to 5 Seating's GREENGUARD Certification makes them recommended by the U.S. Green Building Council's (USGBC) LEED® Rating System. We're proud of our certification and our commitment to the environment.
